## Invitation to EUROCORR 2016

EUROCORR, the annual event of the **European Federation of Corrosion**, is the premier Corrosion Congress in Europe, attracting an ever increasing international audience.

In 2016, EUROCORR will take place in **Montpellier, France**, from **11 to 15 September, 2016**.

Montpellier is a beautiful and charming Mediterranean city, offering a blend of history, culture and modernity. **Le Corum**, Montpellier Conference Centre, is ideally located in the heart of the city, with a large choice of hotels and restaurants within walking distance.

After the success of EUROCORR 2004 and 2009 in Nice, CEFRACOR and the Fédération Française pour les sciences de la Chimie (FFC), member Societies of the EFC, in cooperation with Chimie ParisTech, have been designated by the EFC to co-organize this major event. EUROCORR 2016 will cover all aspects of corrosion science, technology, and engineering, with emphasis on a main theme: **Advances in linking science to engineering**.

This will be achieved by bringing together corrosion experts from universities, research centers, and industries. EUROCORR 2016 will be a forum for presentation and discussion of advances in understanding corrosion phenomena and progress in corrosion prevention.

The program will include plenary lectures, keynote lectures, oral and poster presentations in all the areas covered by the EFC working parties, with additional topical workshops.

A large exhibition is planned, which will feature the latest developments in corrosion resistant materials, corrosion monitoring, coatings, inhibitors, cathodic protection.

Social events, including receptions and a conference dinner, will contribute to the warm and friendly atmosphere that you will find in Montpellier.

We are looking forward to welcoming you in Montpellier for EUROCORR 2016. Please save the date!

*Philippe Marcus*  
Chairman of EUROCORR 2016
